THE SPORT ECOLOGY READING LIST

SUMMER 2019

PREPARED BY
Madeleine Orr, Brian McCullough, Tim Kellison, Jonathan Casper, Sylvia Trendafilova, Walker Ross, Jamee Pelcher, & Tiffany Richardson
THE SPORT ECOLOGY GROUP

The Sport Ecology Group was founded in 2019 by an international group of sport scholars who aim to make academic research and knowledge on sport ecology topics accessible to a broad audience.

The SEG acknowledges the climate crisis and recognizes the unique potential for academics to participate in the public discourse on this topic in meaningful ways. Specifically, the SEG membership sees opportunities for academics to share research with the public via lectures, webinars, social media, podcasts, and other creative means. Further, the SEG believes that sport’s unique global platform can and should be leveraged as an environmental education vehicle for the everyday fan.

Thanks to a gracious partnership with Routledge/Taylor & Francis, all journal articles and book chapters on this list that are published in a T&F journal or book are free-access for 1 year (until Summer 2020). These are linked in green.

OUR MISSION

To produce high-quality research in sport ecology, catalyze industry-academy knowledge exchange, raise public awareness of sport ecology-related topics, and create opportunities for students to learn and grow as professionals.

To this end, the SEG’s operations fall into four programmatic pillars: research, teaching, industry-liaison, and public education.

OUR READING LISTS

The SEG annual reading lists are a collection of academic articles that are shared with the public each summer. Each article on this list has been chosen by the SEG membership for its scope, rigour, approach, or unique insights. Upon request, PDFs of articles in this list can be shared with partners and clients of the SEG.

For more information on this list or its contents, please email research@sportecology.com
PART 1
MANAGING SUSTAINABILITY IN SPORT

Articles

Book chapters

PART 4

EVENT SUSTAINABILITY

- Dolf, M., & Teehan, P. (2015). Reducing the carbon footprint of spectator and team travel at the University of British Columbia's varsity sports events. Sport Management Review, 18(2), 244-255.

PART 5
ATTITUDES AND BEHAVIOURS

PART 6
CLIMATE VULNERABILITY & ADAPTATION

PART 7

COLLEGE SPORT SUSTAINABILITY
